Release Content v1.0.0

The AI Resume Screening Tool is a web-based application developed to automate the resume screening process. The system analyzes uploaded resumes and compares them with job descriptions using Natural Language Processing (NLP) techniques to generate a matching score and rank candidates efficiently.

1. Resume Upload Module

Changes Included

- PDF resume upload functionality implemented.
- Secure file handling mechanism added.
- Multiple resume processing support disabled.
- Improved upload validation.

Benefits

- Simplifies resume submission.
 - Reduces manual data entry.
 - Supports recruiter workflow automation.
-

2. Resume Parsing Engine

Changes Included

- Automatic extraction of resume text.
- Candidate information identification.
- Skill extraction from resumes.

- Educational and professional details processing.

Benefits

- Eliminates manual resume reading.
 - Improves processing speed.
 - Enhances candidate evaluation accuracy.
-

3. Job Description Matching

Changes Included

- Job Description (JD) upload functionality added.
- Keyword-based comparison implemented.
- Resume-to-JD matching process automated.

Benefits

- Faster candidate shortlisting.
 - Improved recruitment efficiency.
 - Consistent evaluation process.
-

4. Candidate Scoring System

Changes Included

- AI-powered matching score calculation.
- Candidate ranking mechanism implemented.
- Percentage-based suitability score generation.

Benefits

- Easy identification of top candidates.
 - Reduced recruiter workload.
 - Better hiring decisions.
-

5. Dashboard Features

Changes Included

- User-friendly web interface developed.
- Resume upload page created.
- Results display dashboard implemented.
- Responsive design added.

Benefits

- Improved user experience.
 - Easy navigation.
 - Professional presentation of results.
-

Technologies Used

- Python
 - Flask
 - HTML
 - CSS
 - Bootstrap
 - Pandas
 - NumPy
 - Scikit-learn
 - PyPDF2
 - Natural Language Processing (NLP)
-

Performance Improvements

- Optimized resume processing speed.
 - Improved matching accuracy.
 - Enhanced application stability.
 - Reduced processing time for large resumes.
-

Known Limitations

- Currently supports PDF resumes only.
 - Matching accuracy depends on resume quality.
 - Limited advanced semantic understanding.
-

Future Enhancements

1. DOCX resume support.
 2. Recruiter authentication system.
 3. Database integration.
 4. Email notification module.
 5. Advanced AI recommendation engine.
 6. Analytics and reporting dashboard.
 7. Cloud deployment support.
-

Release Summary

Version 1.0.0 represents the first complete release of the AI Resume Screening Tool. The application successfully automates resume screening, candidate ranking, and job description matching. This release provides a reliable and efficient solution for reducing manual recruitment efforts and improving hiring productivity.

Note: Multiple resume upload features and analysed Dashboard will be for the next release.
